

Integra™ Miltex®

Fluoride Coated Nurse, Bandage and Utility Scissors

Because we are committed to limiting uncertainty, Integra™ Miltex® Nurse, Bandage and Utility Scissors feature unique fluoride coated blades with a non-stick surface. These scissors minimize bandage and casting residues adhering to the blade surface and, in turn, simplifies your cleaning process.

Fluoride Coated Blades

- Aids in preventing bandage, fiberglass casting material and tape adhesive from sticking to blade surfaces.
- Fully autoclavable.
- Comfortable plastic finger rings available in new color options. See back for color and part number details.
- Matching safety guard on Nurse patterns.
- Available in 8" Bandage & Utility and 5-1/2" Nurse patterns.

Fluoride Coated Blades

Fully Autoclavable

New Color Options
